

# BABYBJÖRN®

## Important information to owners of BABYBJÖRN® Babysitter Balance and BABYBJÖRN® Babysitter Balance Air

BabyBjörn is undertaking a voluntary recall for inspection of BABYBJÖRN® Babysitter Balance and BABYBJÖRN® Babysitter Balance Air, due to the discovery of small metal pieces in the padded area of the babysitter's fabric seat.

Two consumers in Japan found small metal pieces in the babysitter's fabric seat. After further inspection of 15 000 babysitters in stock, five more small metal pieces were found. No incidents have been reported. Nevertheless, BabyBjörn AB has decided to undertake a voluntary recall for inspection.

In Sweden, 6 672 BABYBJÖRN® Babysitter Balance and BABYBJÖRN® Babysitter Balance Air have been sold since their launch in October 2007.

We therefore ask you to send in your babysitter's removable fabric seat for inspection. See instructions below and on next page.

*Please note:* The recall does not apply to all BABYBJÖRN® Babysitters. Read more in the instructions below.

The recall does not apply to BABYBJÖRN® Babysitter 1-2-3, which has a completely black safety latch and a wooden footrest.

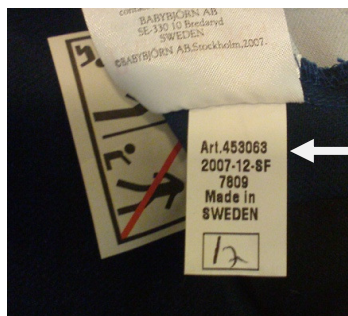

## How do I know if my BABYBJÖRN® Babysitter is affected by the recall?

### 1. Red safety latch and plastic footrest

The models in question have a red safety latch and a plastic footrest. See picture below, right.

### 2. Manufacturing date October 2007 - April 2009

The affected babysitters were manufactured between October 2007 and April 2009. You will find the manufacturing date on the label on the inside of the fabric seat, under the care label.

BabyBjörn® Babysitter Balance/Air

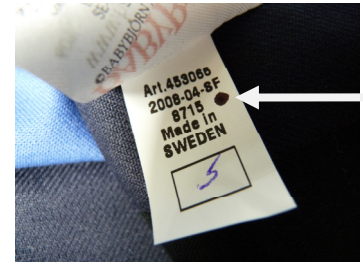

**Please turn over for more details**

## How can I tell if my BABYBJÖRN® Babysitter Balance /Air is not affected by the recall?

### 1. Black dot on the date label

If your babysitter has a black dot on its date label, it means that it has been inspected and is not affected by the recall.

### 2. Green label on packaging

If there is a round green sticker on the packaging (see pictures, right), the babysitter is already inspected and not affected by the recall.

## If you do have a BABYBJÖRN® Babysitter Balance or BABYBJÖRN® Babysitter Balance Air affected by the recall, please:

1. Remove the fabric seat from your babysitter by loosening the two elastic loops at the bottom and pull the fabric seat off the frame.
2. Fold the fabric seat and bring it to Mothercare store at HarbourFront for product inspection.

Mothercare HarbourFront  
1 Martime Square #03-07  
HarbourFront Centre  
Singapore 099253

If you have any questions, please contact +65 6513-3200 or email [info@glisol.com.sg](mailto:info@glisol.com.sg)

**All existing Babybjörn Babysitter Balance/Air stocks in Mothercare have PASSED inspection and have a green label attached on the packaging.**
